

Advantages and Disadvantages about Sun/Jenday Conure

Let's start with the Advantages

- Sun/Jenday Conures are a very beautiful bird with absolutely amazing colours
- They are very famous for their beautiful colours
- Their life span is 12 to 15 years.
- Sun/Jenday Conures grow to a size of around 10 to 12 inches and their body size is fat.
- Physically very strong, sociable bird and love human interaction.
- They are a very playful parrot, they love to fly around out of the cage and enjoy the swings.
- They bond very easily but to start off with they may be scared in their new environment but will settle very quickly.
- A strong bird with an excellent immune system.
- They can talk and mimic

Disadvantages

- The only disadvantage is that they are a loud bird and will make a lot of noise sometimes
- Don't recommend this bird to anyone living in a flat as you may have neighbours that won't be very happy with the noise.

Recommendation

- If you would like some peace and quiet, you may cover the cage or switch the lights off and the Sun/Jenday Conure will be quiet.

What can cause HARM to the Conures

Damp, smoke (cooking, cigarettes etc), air fresheners, scented candles or fragrance sticks.

PLEASE TAKE EXTRA CARE OF THE ABOVE POINTS FOR THE WELFARE OF YOUR SUN OR JENDAY
